

THURAYA ONE

Where Satellite Meets Cellular: The World's First Universal Smartphone

A New Era of Connectivity

Thuraya One redefines communication as the world's first dual-mode, dual-SIM satellite smartphone. Seamlessly blending satellite and GSM networks, it ensures uninterrupted connectivity no matter where you are. With Thuraya One, you're always in reach, from urban centers to the most remote locations on Earth.

Built for Performance and Durability

Thuraya One is designed for adventurers, professionals, and global citizens alike. Its rugged build, combined with cutting-edge features such as Android 14 OS, a Qualcomm Octa-core Kryo processor, and a 6.67" AMOLED Gorilla Glass® display, ensures unmatched performance in any environment.

Your Lifeline Anywhere

From crystal-clear satellite calls and SMS to stunning photo captures with its 50MP triple rear cameras, Thuraya One keeps you connected and empowered in over 150 countries. It is IP67-rated for water and dust resistance, making it the ultimate communication device for your adventures.

Product Features

Dual Mode. Dual Sim

Seamless switching between satellite and GSM networks with two nano-SIM slots.

Direct-to-Device Satellite Connectivity

Uninterrupted calls and SMS, leveraging a scalable and sustainable satellite network.

Advanced Display Technology

6.67" AMOLED Gorilla Glass® screen for vivid visuals and durability.

Powerful Performance

Android 14 OS and Qualcomm Octa-core Kryo processor for exceptional multitasking.

High-Resolution Cameras

50MP triple rear cameras and a sharp front camera for professional-grade photography.

Rugged Design

IP67-rated for dust and water resistance, ensuring reliability in harsh conditions.

Global Coverage

Operates in over 150 countries with 370+ roaming partners for seamless connectivity.

Long Battery Life

Extended talk time and standby hours to keep you connected without interruption.

Technical Specifications

Operating System	Android 14	Bluetooth	BT5.2
Colour	2 (BLACK: Pure BLACK, GRAY: COOL GRAY 5C)	Display	6.67" AMOLED FHD+ 2400*1080
Size (L*W*H)	167*76.5*11.6 mm	TP Type	2D GG5
Housing	Plastics	Rear Camera	50MP + 8MP (Wide) + 2MP (Macro)
Weight	230g	Front Camera	16MP FF
CPU	Qualcomm QCM4490, Kryo Octa Core, 2*A78 (2.4GHz) + 6*A55 (2.0GHz)	Flash light	Rear: 320LM, Front: No
GPU	Qualcomm Adreno 613	MIC	2*Mic MEMS
Memory	128GB + 6GB UMCP LPD4X	Speaker	>95dB@10cm
SIM Card	Dual nanoSIM (1 satellite + 1 cellular)	Battery	Li-polymer 3500mAh non-removable <ul style="list-style-type: none"> Standby time (4G/5G): up to 380 hours Talk time (4G/5G): up to 26 hours
SD card	Micro SD card Supported	Charging	18W (wired)
Card Slot	3-in-2 card slot	USB	USB3.1 Type C (support earphone)
Network	Cellular bands: <ul style="list-style-type: none"> 5G LTE-A HSDPA+ Satellite: Thuraya (L-band), voice & SMS 	Navigation System	GPS, A-GPS, Glonass, Galileo, BeiDou, Cell ID, Wi-Fi positioning
	GSM: B2/B3/B5/B8	Sensor	<ul style="list-style-type: none"> 3D Gyroscope 3D Accelerometer Proximity Sensor Ambient Light Sensor Electronic Compass Fingerprint Vibrator
	WCDMA: B1/B2/B5/B8		
	4G: <ul style="list-style-type: none"> FDD: B1/B3/B5/B7/B8/B20/B28 TDD: B38/B39/B40/B41/B42 		
	<ul style="list-style-type: none"> 5G: N1/N3/N5/N7/N8/N20/N28/N38/N40/N41(PC2)/N77(PC2)/N78(PC2) LTE CA: Refer to LTE CA tab ENDC: Refer to ENDC&SA CA tab 		
Satellite	Thuraya L-band	Fingerprint	Side fingerprint scanner (on Power key)
WiFi	2.4GHz & 5GHz, IEEE 802.11 a/b/g/n/ac/ax, Wi-Fi direct, Wi-Fi Hotspot	Face Unlock	Yes
		Button	Power, Volume +, Volume -
		Language Support	Arabic / Bahasa Indonesia / Chinese (Simplified) / Chinese (Traditional) / English / Farsi / French / German / Italian / Japanese / Korean / Portuguese / Russian / Spanish / Turkish / Urdu (16 languages)
		Dust & Water Proof	IP67

Important Note on the Model Names in Europe:

The name "Skyphone by Thuraya" cannot be used for marketing or distribution within Europe. For European customers, the product will be branded as "Thuraya One". Both models are identical in features and pricing. If you plan to use the product in both regions (inside and outside Europe), ensure you order the correct model for each market. No materials featuring "Skyphone" should be used in Europe.
